Sacrament of the Sick on The First Friday

In the space of two weeks I had two 'sad funerals'! I love to sit and watch bees come and start buzzing round the flowers. Bees, as you will be aware, are a sign of how healthy our environment is. When the bees are healthy, people are healthy too. Bees are facing numerous threats. Known causes of bees' decline include things that affect us too – changes in land use, habitat loss, building projects, disease, pesticides, farming practices, pollution, invasive non-native plant and animal species, and climate change. This brings me back to my 'funerals' I found two Bumble Bees dead in the yard. As a mark of respect and sadness, Anam and I buried them in two flowerpots under nice flowers.

God Bless, Anam & Jerry

Visitors: We welcome you to this beautiful town and area. We hope you will find refreshment and peace here. We wish you all, coming from where ever, a pleasant stay, and when you leave this place may your life refreshed and may your Faith be renewed by Him "from the beginning, we have heard, we have seen with our eyes, we have looked upon and our hands have touched: the word of life" 1Jn 1:1.
